

PRODUCT DATASHEET

INDUSTRIAL PLATFORM SCALE

1500 kg Industrial Scale

Standard model – 125x125 cm platform

This product datasheet represents the standard 1500 kg model only. It shows the default commercial product specification and standard supply scope.

Optional configurations and accessories are available on request, but are not included in this standard model datasheet.

STANDARD MODEL OVERVIEW

125x125 cm platform

1500 kg capacity • 500 g accuracy • IP68 protection • 4 load cells • 1-year warranty

Suitable for production, warehouse, and internal logistics applications.

Standard weighing indicator

CAPACITY	PLATFORM SIZE	ACCURACY	PROTECTION
1500 kg	125x125 cm	500 g	IP68

Technical Specifications

Product type	Industrial platform scale
Model	125x125 cm / 1500 kg
Capacity	1500 kg
Platform size	125x125 cm
Construction	Metal
Load cells	4 pcs
Protection class	IP68
Accuracy	500 g
Indicator	Standard weighing indicator
Warranty	1 year

Standard Included Equipment

- 125x125 cm platform
- Standard weighing indicator
- 4 load cells
- Cables and basic connection

Standard Use

- Production
- Warehouse
- Internal logistics

Product Note

This datasheet describes the standard 1500 kg model only. Optional configurations, alternative indicators, and accessories are available separately on request.
